RAD TORQUE + THE MANUFACTURING INDUSTRY

KEEPING PRODUCTION IN **MOTION**

Your company relies on heavy-duty equipment to produce, assemble and package products. But sometimes that equipment breaks down – halting the manufacturing process.

Whether your company produces cars, food, textiles or another product, our wrenches and Smart Sockets can help you tighten connections quickly and accurately.

Time-saving tools

You are under tight deadlines when it comes to getting products to market.

At RAD, we understand that a single equipment breakdown can halt your entire assembly line, so you need access to the right tools to repair and tighten connections when they come loose.

A single employee or contractor can use RAD's wrenches to tighten bolts and get a system back up and running fast.

Accuracy you can trust

If you use RAD's wrenches to maintain your equipment, you can rest assured that bolts and fasteners are tightened with the correct amount of torque.

Our Smart Sockets measure the actual torque applied to a bolt during a torque cycle. So there is no guessing involved.

Adaptable wrenches

We realize that you rely on a large number of machines to produce your products.

These machines have different designs and different bolting needs. Some bolts might be easy to access and others might be out of reach with a straight tool.

RAD creates custom offsets to help technicians reach low clearance bolts. In fact, all offsets that we do for manufacturing companies are custom-made.

RAD SDM MULTIPLIERS

For applications where tool access to the bolt is limited!

- Planetary gear reduction technology
- Low Profile gearbox
- Designed for confined applications in multiple industries
- The RAD SDM Multipliers are to be combined with a nut runner

PART NUMBER	GEARBOX	RATIO	INPUT	OUTPUT	TORQUE (FT)
10676	SDM MULTIPLIER 400	82:1	1/4"	3/4"	400
10510	SDM MULTIPLIER 400	144:1	1/4"	3/4"	400

RAD SINGLE SPEED

Extreme-duty torque wrenches for heavy-duty applications!

- The ultimate in power-to-weight ratio
- Wide torque range to suit multiple applications
- Unmatched reliability delivered by one of the most advanced engineered gear boxes on the market

B-RAD SELECT

Torque ranges up to 5,000 ft. lbs.

- Now with digital torque settings, increase or decrease the value by 10 ft. lbs.
- Torque ranges up to 5,000 ft. lbs.
- Equipped with the latest lithium-ion technology
- Suitable for pre-torque and service jobs where electricity or compressed air are not available
- Longer battery life as energy is used more efficiently

ABOUT RAD TORQUE SYSTEMS

More than 25 years of gearbox design and engineering.

As a leading Canadian manufacturer of pneumatic, battery powered and electronic pistol grip torque wrenches, our proprietary precision tools are successfully used in the oil and gas, wind energy, petrochemical, mining, aerospace and manufacturing industries around the world.

Over a decade ago, we pioneered and patented the first programmable digital torque technology enabling effortless data collection and highly precise Bluetooth calibration.

We continue to innovate and achieve the highest level of quality and performance. Our operations are designed for maximum flexibility and responsiveness, ensuring every customer receives outstanding service.

RAD Torque Systems is owned and operated by New World Technologies Inc., a company that continues to invest in and employ the latest technology to achieve the highest level of innovation, quality, and performance – which has resulted in multiple patents.
